

Force Pusher Technology Extruder Without Agglomerator & Without Grinder For Film Waste Directly Feeding.

Model No.	H.P. Extruder	H.P. Force Pusher	Total Power H.P.	Output Kgs/hr.
FP 130 X 100	50	15	100	150 to 175
FP 160 X 130	75	25	150	250 to 275

*Capacity Depend on Material & Feeding System

Specification :

- Most Advantage of This Machine is No Need to Crush or Densify (Agglo) for Film Waste for Feeding Material In Extruder Inlet.
- There is Special Force Pusher Technology for Feeding Material in Extruder.
- It's Energy (Ele. Power) & Man Power Saving.
- Material is not Heating Double Time (Like as Agglo & Extruder.)
